

## BROOKLYN TO FIGHT NAVY YARD CLOSING

Merchants Delegation Will Go  
to Washington to Talk  
Against Scrapping.

Members of the Brooklyn Chamber of Commerce, the Merchants Association of New York and other organizations will go to Washington this week to protest against the proposed "scrapping" of the New York navy yard under the new program of naval limitation. Similar action has been taken by other cities having navy yards.

A recent letter to the Brooklyn Chamber from Secretary Donby said he could give no assurance on the future of the yard, but its maintenance depended entirely on the appropriations received by the Navy Department. Within a year more than 7,000 workmen have been laid off at the New York yard, due to the slackening of naval activity, and the Brooklyn Chamber of Commerce says this is adding to the borough's unemployment problem.

Frederick W. Rowe, former Representative, will head the committee of the Chamber of Commerce, which also will include Edwin P. Maxmuth, president of the Brooklyn Trust Company; Benjamin H. Namm, of A. I. Namm & Son; Postmaster Walter C. Burton; William G. Cooper, of Frederick Looser & Co.; Edward C. Blum, of Abraham & Straus; Herbert F. Gunnison, of the Brooklyn Daily Eagle; Irving T. Bush, of the Bush Terminal Company; Harry M. De Mott, of the Mechanics Bank; Edward Riegelmann, Borough President; Lewis H. Pounds, Port Authority Commissioner; Col. Andrew D. Baird and Charles A. Gorman.

The abandoning of either the Norfolk navy supply base or the one at South Brooklyn is under consideration by the Navy Department at present. Norfolk has made strong protests. The Brooklyn delegation also will take up this matter with the navy officials.

## PRISONER PRAISES POLICE FOR NOT CURSING

Newark Men Efficient, Says  
Securities Salesman.

Chief of Police Long of Newark yesterday received a letter from John W. Doran, in jail there, complimenting the Newark police for their efficiency. Doran, a former securities salesman, held in connection with stock and bond burglaries, wrote:

"Permit me to express my respect for your force and particularly the agents assigned to my case. In spite of my reluctance to come across they get results without violence, threats or even the least bit of cursing. Your city should be proud of all."

Detectives Thomas and Ryan located Doran's room in New York and obtained evidence which they allege connected him with several robberies in Brooklyn.

## Shoes You Don't Want to Change

All shoes have to look trim on your feet—but there are shoes which hurt you so that you change from them upon your first opportunity. Such shoes interfere with one's daily duties and pleasure—many women seem absent-minded, "out of sorts," because they are thinking of the time when they can change into more comfortable shoes. In the

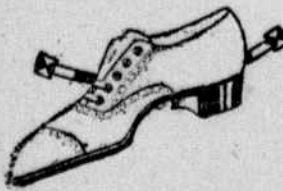

## Cantilever Shoe

—which is a good looking shoe—heel, toe, sole and arch are carefully fashioned into a shoe, trim yet comfortable. The Cantilever Shoe is made with the rounded toe and lower heel now in vogue, with a natural sole-line that has every consideration for the shape of your foot, and with an arch flexible like your own arch.

These make up a shoe good looking but supremely comfortable. That flexible arch bends with every step, strengthens, through exercise, muscles that inflexible, steel-shanked shoes tire and weaken. Cantilevers help to increase a woman's vigor, endurance and vitality.

Cantilever Shoes are good looking enough to please the eye, and their comfort eases the foot. View a pair on your feet. See how excellently they are made.

## The Three-Piece Suit

Is Featured by Practically  
Every House in Paris Now

You're quite out of the mode unless you possess one of these frock-and-coat or frock-and-cape suits this Spring. Paris says so—and what Paris says to-day your friends say to-morrow! Besides, they're really an economy, giving you a smart tailleur and a separate day frock in one.

Codine forms the basis of a cape-suit—a smooth twilled fabric made of the finest wools, and delicately embroidered with a tiny, tiny, braid. The body and sleeves of the frock are of crepe in beige, grey, blue or lipstick red—and Paris says, again, that they must be of bright contrasting fabric.

The frock-and-coat suit is in twill cut with a slim little box coat and combined with crepe in the same shades.

There are various other models for your selection—all good looking, well made, and the last word in daytime fashion.

Capes and cape-wraps, in crepe, in moire, in velette, in many kinds of soft feminine materials, are the chief joy of women this spring. We show an unusually wide selection of them with caracul or fox collars.

One interesting model shows the new panel sleeves which Jean Patou sponsors and which give that long graceful arm line. It is made of a heavy fine crepe with collar and deep bands of uncurled caracul.

Briefer, and revealing a provocative flash of red when April breezes frolic, is a moire cape with double-faced bell flared collar of curled caracul. Another model with dolman sleeves has the low blouse effect at the back and is trimmed with a distinctive ruching of crepe. Another in velette and caracul is lined in glorious shades of crepe—jade, henna, grey, beige and orchid. \$45 to \$295. Women's Coat Department.
